rush. In about a year, however, production will have partially caught up with consumption, and we may then expect some abatement of activity. The numerous advances in wages and the starting of new enterprises will suffice to carry us along for a considerable period. Crop prospects are not unfavorable. There is every likelihood of our having an average amount of wheat for the coming year, and the great revival in industrial and commercial activity materially swells the revenue. The political future contains many perplexing questions, but they are not of a sort that will seriously affect business. The next session of Congress will be viewed with much less concern than its predecessors, not the least because both parties will avoid giving of fence previous to a Presidential election.

THE BUYERS' GUIDE.

\$55.00 GUARANTEE! —

Last Week. Neighbors of Yours Got It. You Are Next!

Listen: It is only a matter of four weeks until you will have to buy a wheat drill.

If You Will Leave Your Order Now Will Give You \$5.

It is not a question of selling you. We can please you sure, because we handle all the most desirable makes; the most desirable, because every make of drill that we handle has some peculiarly advantageous features that appear upon no other drills. For instance—

The Richmond Champion!

Succeeds in certain conditions of land where no other drill made will sow satisfactorily. The Richmond Champion, instead of having a cast-iron boot on one side of the disc, has a small steel wheel that revolves with the disc, thus cutting out all trash or mud that will and does clog any other drill that you ever saw or heard of. It is utterly impossible to clog the great disc or trash or wet ground with a Richmond Champion Disc Drill, and in any time after you get it when it becomes necessary for you to use fertilizer (or reason of your own land becoming weak, or having changed farms) you can buy a fertilizer attachment and place upon your drill, while if you owned any other drill made you would have to buy an entire new drill. If you had sowed last fall with a Richmond Champion you would have harvested a good crop, because the small steel wheel on the off side of the disc extends down two inches lower than the boot upon any other drill and prevents the dirt from falling back into the furrow until after the seed has been deposited.

OTHER DRILLS.

The New Empire is now changed to a rear pressure with double swedged cold steel dragbars and thirty-inch spring pressure rods with which you can tear up a pile with it. This is the golden anniversary of the old Empire force feed that many years ago made them famous. The Empire does not sow by weight but by measure, and is absolutely and positively accurate. It is sowing disc, and it handles the McHenry, Indiana, etc., all of which are worthy of your attention. Come in and inspect them; it costs you nothing and may greatly benefit you. These are all disc drills, and they come in 8, 10, 12 and 16 discs. The price of an 8-disc drill is \$52.50 the world over. The price of a 16-disc drill is \$55.00, and if you will give your order NOW instead of a few weeks later I will make you a present of \$5, which will make it \$50.00. I want it out when you get ready, but leave your order now and save the \$5. I take it you want a moving—that's the reason that I make this offer.

STEEL ROOFING.

Just received, two carloads of Steel Roofing, which I will sell cheaper than any living man. I bought it right and will give you the advantage of my judicious buying.

# TOW WIPPED OUT. OUT ON FULL LUGG ELECT OFFICERS.

Carrabelle, Fla., Was Practically Destroyed by the Terrible Wind and Rain Storm.

DOCKS AND WHARVES SWEEP AWAY.

Thirteen or Fourteen Large Lumber Vessels Were Swept Ashore and Now Lie on Dry Land.

Only a Couple of Huts Left Standing in Carrabelle—Towns of McIntyre and Curtis Mill Also Completely Demolished—Loss of Life Not Known.

TALLAHASSEE, Fla., Aug. 4.—The first train since Monday from Carrabelle through the storm-stricken gulf coast section reached here Thursday afternoon, the passengers having been transferred twice from a flat car to the Carrabelle to a lever car between Coal creek and the Ochlocknee river, and then to the relief train for Tallahassee.

The train crew and passengers agree in stating that reports sent out of the destruction wrought by the storm have been extremely moderate.

Carrabelle is literally wiped from the map. Her docks and wharves, containing about 400,000 feet of lumber and 50,000 barrels of resin, were quickly swept away. Thirteen or fourteen large lumber vessels in the bay were blown ashore and are now lying well up on dry land. These vessels contained several million feet of lumber.

No information is obtainable as to the loss of life from Carrabelle, as the loss of life from the storm on the large fleet of fishing boats in the neighborhood. Only two or three huts are left standing in Carrabelle and one colored woman is known to have been killed by the force of a house. Citizens of Carrabelle are in a state of wild confusion and are flocking in every direction for relief. The town is isolated and the wires are still down. The towns of McIntyre and Curtis, Fla., are completely demolished, and large interests have been destroyed. The coast resorts, Teresa and Lanark, are more seriously wrecked than the others, and visitors have suffered great hardships, though no loss of life is yet known. Fifteen men said to have been seen fishing on an isolated dog island, just before the storm broke, can not be found.

As the vessel is largely constructed of wood, there was no great danger of her sinking, although the injuries she received would have sunk an iron ship.

No New Cases and No Deaths on Thursday. Dr. John Archibald, of New Orleans, Will Report in Washington for Duty.

WASHINGTON, Aug. 4.—The yellow fever situation at Hampton continues favorable and encouraging in the opinion of the officials of the marine hospital service. According to official reports there has been no spread of the contagion since Wednesday, nor has any of the cases now under treatment proved fatal since that time. It is hoped to confine the disease to the soldiers' home and Phobus, but Surgeon General Wyman thinks it too early to make a definite prophecy regarding the outbreak, as it is only four or five days since the presence of the fever became known to the officials here. Thursday night, at half past 8 o'clock, Dr. Wyman received a telegram from Dr. Vickery, stationed at the soldiers' home, stating that "situation favorable and encouraging, no new cases and no deaths."

Dr. Wyman Thursday night received from the home a list of the members of the board of directors who were brought on and after the 22d of July, the day after a number of the inmates became sick with the fever. Accompanying the names were the exact dates and time of the furlough and the destination of those to whom they were granted. The surgeon general gave this information to the press and asks that newspapers in the places to which these persons have gone publish it and that medical officers hold under close observation for a period of at least ten days after they left the home such of the inmates as they are unable to find. Most of the inmates furloughed fortunately have gone to northern cities.

The list of inmates furloughed with date and destination: Harry Arnold, July 22, Philadelphia; John Ball, July 22, Baltimore; David W. Biddle, July 24, Harper's Ferry; James Brand, July 24, Philadelphia; Ephraim Corey, July 24, Kansas City; Thomas Cumming, July 24, Philadelphia; Thomas N. Craig, July 25, Baltimore; William T. Flynn, July 25, Norfolk; Matthew Gysin, July 25, Harington; Samuel W. Hutchinson, July 24, Philadelphia; James Neely, July 25, Philadelphia; John M. Jackson, July 25, Washington, D. C.; James C. Lomax, July 25, Washington, D. C.; Thomas Mullen, July 25, Elizabeth City, N. C.; John McSorley, July 24, Philadelphia; Hugh McDonald, July 24, Philadelphia; John Peters, July 24, Philadelphia; Martin Speight, July 24, Hazleton, Pa.; Richard Townsend, July 24, Philadelphia; Jacob Trautwein, July 25, Baltimore; William T. Tallmadge, July 27, Newburgh, N. Y.; George A. Vance, July 26, New York City; Wm. U. Wheeler, July 24, Wellsville, Va.; John Young, July 25, Philadelphia.

Surgeon Pettus wired from Fort Monroe Thursday night that there is nothing new Thursday, and that good patrol is being maintained.

Acting Assistant Surgeon P. St. L. eClure will be on duty at Craney Island. He went there Thursday night to persons held in detention at riskley. Some from Norfolk were at over Thursday. Dr. John Archibald, of New Orleans, will reach Washington in a few days for duty and may be assigned to him.

Regarding rumors said to prevail in Newport that government experts had pronounced the disease not to be yellow fever, Dr. Wyman says Sternberg each said Thursday night that no such information had been sent to either of them and that no reason was known for questioning that the disease was yellow fever.

A New Remedy for Tuberculosis That Has Developed in France Reported to the State Department.

WASHINGTON, Aug. 4.—A new remedy for tuberculosis developed in France has been reported to the state department by United States Commercial Agent Atwood, at Roubaix. It is a treatment called to the attention of the academy of medicine by Dr. Mendel, and consists in the daily injection into the bronchial tubes of essence of eucalyptus, thyme and cinnamon, held in solution in olive oil. The oil in descending slowly comes into contact with the walls of the tube and upper lungs. The gas set free saturates the air in the lungs and acts on the mucous membranes. JUMPED FROM THE BRIDGE.

Treasurer Hauser, of the Herald square Theater, New York, Takes a Terrible Leap—Not Badly Hurt.

NEW YORK, Aug. 4.—Henna Hauser, treasurer of the Herald square theater in this city, jumped from the middle span of the Brooklyn bridge at 5 o'clock Thursday afternoon. He was rescued from the water and will recover. Hauser was a passenger on an electric car bound from Brooklyn to New York. He sat calmly reading a newspaper until about the middle of the bridge was reached when he jumped off the car. Throwing off his coat, Hauser climbed upon the outer railing to leap. The bridge policeman, passengers on the cars and the car men made a rush for the man. He regarded their approach coolly, hesitated a moment and then leaped clear of the structure. He struck the water just astern of a ferry boat. A passenger sprang overboard and seized Hauser when he reappeared on the surface. He was lifted aboard, taken to shore and sent to the hospital.

Hauser is about 30 years old and is very well known in the theatrical fraternity. He has been an usher at Hooley's theater in Chicago. Then he became assistant treasurer and later treasurer. He was connected with Hooley's for ten years. He came to New York to marry a girl, but she died. One story, which Hauser confirmed Thursday night, was to the effect that a little girl on her way back from Coney Island on a Third avenue car came to the Hooley theater. Her father concerning the big bridge just about the time they reached the Brooklyn end. This child, perhaps seven or eight years of age, inquired whether any one had ever jumped from the bridge. The parent replied in the affirmative and attempted to induce his daughter to keep still. Scarcely had he said the word and the little girl, so the story runs, was Mrs. Hauser. Suddenly and without warning the child began again with the remark:

"Well, papa, I would like to see somebody jump off."

"Won't she?" came a voice in reply. "I did for the able to find."

When asked why he made the jump he said it was because he was a drunkard. He insisted that he had had no trouble of any sort either in family or financially. Finally he jokingly remarked, "That's what Coney Island booze does for a fellow."

DENVER, Col., Aug. 4.—Mayor Johnson Thursday vetoed the license for athletic clubs which conduct sparring contests at \$1,500. In his message the mayor said: "I am unwilling to approve an ordinance which would make it possible to have repeated in Denver such a brutal contest as was witnessed in this city about one week ago at one of these so-called athletic associations." It is not likely that the ordinance can be passed over the veto.
